

Finalist 3 Story

My mom is Michelle Folks. She is the best mom to ever exist. She is a single Mom and has worked so hard her whole life. She put my sisters and I before herself every time. My teeth look great because she sacrificed for me. My momma is beautiful and I love her smile. I think she deserves the new smile because she feels insecure about her teeth. She believes her teeth to be small and discolored. She is lovely inside and out. I want her to feel as beautiful, as I believe her to be. She deserves the world, but a new smile would be the closest thing I could give her. Thank you for doing this and for making Mom's feel special this year!!! I don't know what we would do without our Momma's.
